#### SCIENTIFIC FARMING

(Continued from Page 1)  
in the world at present. And it is accomplishing wonderful results."

He went on to say that the experimental stations in the various States are popular now, as the farmers realize that the scientists are trying to produce better plants and better animals for their work.

"At the same time, there is the other side, with which you and most people are familiar—that the business side of farming has been largely neglected; or perhaps I should say that stress has not yet been laid on it, as it was more important first to develop better species and specimens of plants and animals. But now the business side is becoming the important side."

He freely illustrated with concrete examples all his points.

The point that by working alone, dissociated from all his fellow-farmers, the individual farmer cannot succeed, Dr. Wilcox brought out, speaking of the natural suspicious attitude of the agriculturist, and his enmity, in many cases, to new thoughts and suggestions. He told of a community in the Middle West where potato-growers have a representative in the markets of the country, to keep them informed where their product is needed. And he contrasted an example in Georgia, where peaches spoiled on the ground where produced, and there was a famine for this fruit in Washington.

"As to the experiment station here, I want to say that the policies used will not be changed in the least," he said.

After outlining the work of investigation and publication of results, as it has been carried on right through here, he said that the War Department has been interested to know what Hawaii could do for herself in case of war, if she were shut off from outside communication in case of trouble. "It is a thing which ought to be considered very seriously," he said. "If communication were cut off, there would be a decided scarcity of food here in a week or two, and a panic would certainly ensue shortly. With the possibility of growing everything on earth, staple things are not produced in a quantity needed by the people as a whole."

"I suggest that you organize a plan for securing here food independence, so to speak. Then you will be in better shape than ever before."

"It would be expedient to teach people merely how to grow the staples, as potatoes, onions, and cabbage, in the prospect that in case of trouble they might turn to this line of work, and support themselves."

He mentioned that the lawns which he had noticed were so common in the city might be devoted, in one corner at least, to raising vegetables, which would be at least more wholesome than those secured from the markets or from peddlers.

He declared his intention to develop those products which shall be of particular advantage to Hawaii, closing with the words, "The time has come when the business man and the farmer should be working together. They should use the same methods, as farming is a business matter from all but the technical standpoint."

"The idea that I want to leave to you is that the business man and the farmer get together, both in a business and a pleasurable way, and see what they can do."

Washington, June 5.—Postmaster-General Meyer has decided to strike still another blow at anarchists and anarchistic literature. Although seditious publications are placed under the ban wherever found in this country and forbidden in the mails, it is learned that the most rabid of foreign literature comes into the United States without much, if any trouble.

In order to meet this difficulty it has been decided by the Postmaster-General to require that publications containing articles of questionable character shall submit translations in English in order that it may be determined whether or not they are admissible to the mails of this country. While this order has not yet been issued and its exact provision cannot be given, it is looked for at an early date.

#### WATERFRONT NOTES

THE AMERICAN-HAWAIIAN company's steamer Despatch arrived in port this morning, on what is probably her last run in Islands waters before leaving for the Coast. She is due to sail on Saturday for San Francisco, having been sent here for a special work in getting the sugar away from some of the smaller ports, and having accomplished her work for the time being.

THE MATSON steamer Hilonian, looking light in spite of 3000 tons of general cargo, including the remainder of the big guns for the fortifications back of Diamond Head, arrived in port at 5 o'clock yesterday afternoon, bringing her usual list of passengers, and the Santa Clara baseball team. She was met at the dock by a very large crowd.

The Hilonian had a nice and uneventful trip all the way down.

THE ARIZONAN sails at 5 o'clock this afternoon for Kaula, to return to this port later, and then on to San Francisco.

THE KINAU goes out for Kaula at 5 o'clock this afternoon, and the Helene for Hawaii at the same time.

THE VIRGINIAN is due to sail from San Francisco on the 15th for Honolulu direct.

THE AMERICA MARU, from Yokohama, sailed for this port on the 7th inst.

THE ALASKAN, from Kahului, arrived at San Francisco yesterday.

#### MERRY WIDOW WON

Philadelphia, Pa., June 13.—Overwhelmed by the weight of evidence and the unquestionable superiority of argument, two young men of the Alumni Association of the Wyoming Grammar School went down in utter defeat last night before the two young women who supported the negative of the debated question: "Resolved, That the Wearing of Merry Widow Hats Should Be Prohibited."

Only one of the arguments of the affirmative seemed to carry any considerable weight. It was the contention that the contemporary headgear so shelters the streets that showers are unable to percolate through and wet the pavement, thus throwing the burden of moistening the city upon the already overloaded water wagon.

#### TWO MILLIONS NEEDED TO EQUIP THE MILITIA.

Washington, June 17.—The militia board appointed by the Secretary of War under the recent act of Congress providing for the reorganization of the States and Territories completed its work today. The board has reached the conclusion that the organized militia cannot be fully equipped for field service for \$2,000,000, the limit allowed by law in any one year, and the opinion of the members is that the process of equipment must be carried on for a number of years before it can be completed.

#### WYOMING NEARLY READY.

Vallejo, June 13.—It was reported at the Mare Island Navy Yard today that the monitor Wyoming would be placed in commission the latter part of July. The monitor has been undergoing repairs and changes for several months past, and as soon as the Atlantic battle-ship fleet sails for the Orient, on July 8th, the yard departments will then have time to complete what little work is still undone. The Wyoming has been changed into an oil burner, so that it can be determined whether or not it would be advisable to use oil as a fuel on board the larger ships of the Navy.

Mexico City, Mex., June 13.—"Uncle Tom's Cabin," under the title of "La Cabana de Tio Tom," was the principal attraction at the Arbu Theater recently. It had been announced that "Maximiliano I, Emperador de Mexico," a historical drama by a French author, would be given a first presentation in Mexico on this occasion, but shortly before the function the management decided to substitute for this the play mentioned. The work of Julia Ward Howe has been translated into Spanish with a marked degree of fealty to the original, and though it is not at all new to the Mexican playgoers, its popularity was shown to retain its vigor.

### HUMAN INTEREST PLAY AT ORPHEUM

"The Silver King," a melo-drama with a story that fairly grips one, with its intense human interest, will be the play for the latter half of this week starting tonight. The "Silver King" has been the favorite melo-drama of theater goers for years. The story and incidents of the play will always appeal to our theater goers. It contains plenty of comedy, delightful character sketches and elaborate display of scenery, and a large cast of characters. Mr. Richard Bohler will play the title role. The following is the story of the play:

Geoffrey Ware succeeds in ruining Wilfred Denver and lowering him in the eyes of his wife with whom he is in love. In a fit of drunkenness and revenge, Denver visits Ware, when Ware is killed, and Denver awakens in the house from his drunken stupor, thinking he has killed him. While attempting to escape he reads of his supposed death in a railway accident. He flees to America, where he discovers a silver mine, becomes wealthy and is known as the "Silver King." He returns to England, where he finds his wife and children in distress. He does not make himself known, still thinking that he is a murderer. He eventually proves his innocence and is reconciled to his family.

There will be specialties between the acts as usual. As a special added attraction Manager Cohen and Lumley have engaged Mme. Blanche Arral to appear Friday evening July 10th and Tuesday evening, July 14th. This world famous artist will give several select sections on both evenings. Seats now selling.

#### CRUZ STILL ON TRIAL

The only case before the Circuit Courts this morning was that of the Territory of Hawaii v. Manuel Cruz, for assault upon a child under the age of ten years. This case is being heard by both sides, Clem Quinn representing the defense, and County Attorney Cathcart carrying the prosecution. It is a jury trial.

THE CLAUDINE arrived this morning from Hilo and Maui with a cargo reported as follows: 118 sacks potatoes, 6 horses, 42 hogs, 30 calves, 21 packages hides, 45 empty bottles and 211 packages sundries.

THE DESPATCH is expected to sail for San Francisco on Saturday.

## BRYAN AND LABOR WORKING TOGETHER

DENVER, Colo., July 8.—The convention unseated the ten Guffey anti-Bryan delegates from Pennsylvania by a vote of 615 to 378, after a fight on the floor of the convention lasting for three hours. The fight was over the adoption of the report of the Committee on Credentials, which had declared against the Guffey delegates. A minority report of the anti-Bryanites, consisting of the delegates from fourteen States, including New York, accompanied the committee majority report.

The delegations from California and Hawaii favored Bryan in the contest over the disputed seats.

The result is a complete victory for the Bryanites.

#### Hobson's Jingo Talk

Congressman (Captain) Hobson addressed the convention today, and predicted that war between Japan and America would come in less than four years. He stated that the Republican party was responsible for the fact that the vulnerable positions along the coasts were not fortified.

#### Gomper's Anti-Injunction Plank

The Committee on Platform has agreed to the insertion of a plank declaring against the rights of the courts to issue injunctions against labor unions in case of strikes. This is the plank approved by Gompers, which was denied by the Republicans.

#### NEBRASKA IS NOT COMING

SAN FRANCISCO, Calif., July 8.—The battleship Nebraska will sail tomorrow for New London, Connecticut.

The Nebraska was supposed to have sailed from San Francisco on Tuesday last with the other fifteen battleships for Honolulu, but was detained on the Coast in quarantine, scarlet fever having broken out among her crew. It was thought that she would sail later to rejoin the Fleet here.

#### MILLION-DOLLAR BOSTON FIRE

BOSTON, Mass., July 8.—A fire which occurred on the waterfront here today did a million dollars' worth of damage. Two persons are missing and are supposed to have been killed in the fire.

#### SAILORS SCALDED ON NEVADA

SAN FRANCISCO, Calif., July 8.—Three of the members of the engineers' crew of the monitor Nevada were scalded today as a result of a burst steam pipe.

#### HONDURAS REVOLUTIONIZING

TEGUCIGALPA, Honduras, July 8.—The revolutionists are carrying on an active campaign against the Government forces in the province of Choluteca.

#### SIX BURNED IN BUDAPEST

BUDAPEST, Hungary, July 8.—Six persons were burned to death and fourteen others were seriously injured in a fire here today.

#### TAFT BANNER REMOVED

LINCOLN, Neb., July 8.—The Taft banner which has been flying here on property owned by Bryan has been removed.

#### NEW YORK IS COOLER

NEW YORK, N. Y., July 8.—The weather here is cooler, and there were no heat prostrations reported on Wednesday.

### LADIES IN CHARGE OF HAWAIIAN LUAU

A number of Hawaiian ladies will give a big Hawaiian luau in the grounds of the Queen's Hospital during the Fleet's stay here. The proceeds, it is said, will be expended for the transfer and erection of a Kamehameha statue to the Kohala Government school yard. At present the statue is located in a lone spot where visitors are seldom seen. Following is the list of the various committees.
